

Special Fluids : tomorrow's products, today

Products and applications

Products and applications											Applications																			
< 0° C			0 → 21° C			21 → 61° C			61 → 100° C			100 → 120° C			> 120° C			FLASH POINT												
DISTILLATION RANGE																														
											ISANE IP 185																			
											ISANE IP 175																			
											ISANE IP 165																			
											ISANE IP 155																			
											ISANE IP 130																			
											Isoparaffins																			
											HYDROSEAL G 400 H																			
											HYDROSEAL G 3 H																			
											HYDROSEAL G 250 H																			
											HYDROSEAL G 240 H																			
											HYDROSEAL G 232 H																			
											Special fluids																			
											SPK D100																			
											KETRUL 212																			
											KETRUL 211																			
											TOTAL SPK 05 *																			
											TOTAL SPK 03 *																			
											Kerosenes																			
											KETRUL D85																			
											KETRUL D80																			
											KETRUL HT																			
											KETRUL D75																			
											KERDANE																			
											SPIRDANE D66																			
											SPIRDANE K2																			
											SPIRDANE K1																			
											SPIRDANE D60L																			
											SPIRDANE D60																			
											TOTAL SPK D40 *																			
											White spirits																			
											SPIRDANE HT																			
											SPIRDANE BT																			
											SPIRDANE D40																			
											SPIRDANE D30																			
											SPIRDANE L1																			
											HYDROSOL ESS. F < 5																			
											HYDROSOL ESS. 100/140																			
											HYDROSOL 100/130 N																			
											HYDROSOL ESS. E < 5																			
											HYDROSOL ESS. 80/110																			
											HYDROSOL ESS. C																			
											HYDROSOL 75/95 N																			
											HYDROSOL ESS. 60/95																			
											HYDROSOL ESS. A																			
											HYDROSOL HEPTANE																			
											HYDROSOL HEXANE																			
											HYDROSOL ISOHEXANE																			
											HYDROSOL PENTANE																			
											SBPs																			
											TOLUENE																			
											XYLENE																			
											SOLVAREX 9																			
											SOLVAREX 10																			
											SOLVARO AFD																			
											Aromatic solvents																			
											EXAROL (11, 25, 41, 50)																			
											PLAXENE (185, 1100, 6110, 25110)																			
											PLAXOLENE (10, 25, 40, 50, MS, TD)																			
											Plasticizers																			

Typical aromatic content: ■ < 0.001% ■ 0.001 → 0.01% ■ 0.01 → 1% ■ 1 → 5% ■ 5 → 20% ■ > 20%.

* Only available in the U.K.

Our Special Fluids ranges also include :

HDF, EBF and EDC drilling fluids,

CLERANE for environmentally-friendly degreasing,

ECOLANE mineral seal oils,

GEMSEAL for use in the cosmetic industry,

KERDANE heating oils,

SCRIPTANE printing ink distillates,

BANOLE, CITROLE, HERBIDOWN and ARB'HIVER

adjuvants for crop protection.
